## **UENG 101 – COMPOSITION & CRITICAL THINKING**

Success in college calls for curiosity, engagement, and a willingness to be challenged, as well as having a strong foundation in reading, writing, and thinking. First-year students at Widener begin their college career with UENG 101, a course designed to prepare undergraduates for serious academic inquiry, full participation in the intellectual life and mission of the university, and sustained self-directed learning throughout the curriculum. Students have the opportunity to select a section of UENG 101 focused on a particular theme or topic. Through a variety of challenging reading and writing assignments engaging with the topic of choice (including a common reading), students become more careful and discerning readers. They will express insights and craft sustained arguments supported by carefully chosen evidence from primary and secondary material, and they will strengthen their ability to ask questions, evaluate, and synthesize complex information and draw conclusions.
