Re: Request for exception re: reimbursement on FTE Capacity on Sanitary Sewage Costs

Dear Mr. Vogel:

In review of PlanCon F19 with our Architect we are made aware of the fact that reimbursement for the Sanitary Sewage Costs would be based on the new construction only. Because this project includes the total reorganization of our existing CTE at the Aston Campus which has allowed us to increase the programs served by the School both within the existing footprint as well as in the new construction, we are asking that the sanitary sewage costs be assessed to the entire building project affecting the Vocational Programs. The last major building project completed at the Aston Campus was in 1993, 24 years ago.

Your consideration of our request is appreciated,

Sincerely,

John F.X. Reilly
Chair
