About Delaware County Intermediate Unit

The Delaware County Intermediate Unit (DCIU) is one of 29 regional educational service agencies created by the Pennsylvania General Assembly in 1971. DCIU administers instructional, curriculum, enrichment and administrative programs and services to 15 public school districts and 50 private and parochial schools in the county.

The IU is divided into seven service divisions: Administrative and Support Services, Career and Technical Education Services, Early Intervention, Early Childhood Education, Information Technology Services, Special Programs and Curriculum, Instruction and Professional Learning. These divisions oversee programs that directly and indirectly benefit thousands of students in Delaware County. Programs include instructional, remedial and enrichment services for regular, occupational and special education students and staff. Other Delaware County Intermediate Unit services support school district personnel and school board members. The diversity of DCIU programs enables staff to interact with school district personnel at all levels and to maintain a cohesive educational network throughout Delaware County.
