

Mission Statement

The Delaware County L.I.C.C. is a partnership among families, Early Intervention agencies and community groups that provide quality services and resources to young children from birth through five years of age with developmental delays.

Early Intervention and Preschool Special Education Philosophy

We believe that every child is unique and that all children can learn.

Early Intervention Infant/Toddler and Pre-school education services help to establish a firm foundation for future learning.

Provision of these services should occur through team effort. By establishing mutually respectful relationships among families, professionals, and community members. It is through such a united effort that our children grow, thrive, and develop a positive attitude towards themselves and their world.

Location for most business meetings and parent workshops:

Delaware County Local Interagency Coordinating Council (L.I.C.C.)

Do you need information about local resources? Would you like to add your perspective to enhance services and supports for children in our area?

Do you want to participate in a discussion about local children's services? We'd love for you to join our meetings! At L.I.C.C. meetings, parents, providers, childcare agencies and Early Intervention administrators discuss how to best support families with infants, toddlers and preschoolers.
